

THE PATRIOT'S PLEDGE

I HONOR the sacrifice of countless Americans who have given their lives and labors to preserve our country. I WILL WORK to keep the United States a free and sovereign nation. This includes protection from foreign influence and infiltration of its highest offices.

I WILL NOT support candidates for public office whose independence is compromised by AIPAC and other groups representing foreign governments.

I CALL ON all elected officials to disclose their dual citizenship and other conflicts of interest with foreign countries that could compromise their loyalty to the United States.

I ASSERT that no elected officials should actively serve in the armed forces of any foreign government nor be extended the privileges of our veterans for serving a foreign country.

FOR A FREE AND SOVEREIGN AMERICA

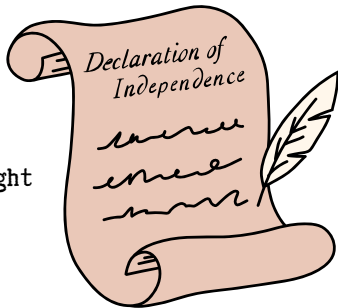

A foreign country boasts that “all its candidates” get elected every cycle.

A foreign country spends millions buying American politicians and spreading its propaganda in our country.

A foreign country wants American kids to fight and die in its wars. It does it all without registering as a foreign agent, violating American laws.

From the sinking of the USS Liberty to today, Israel is not America’s friend. It’s time to declare independence.
